for people who dont know zblock was a tool or a mod it was popular in alot of servers and it basicly made bhopping slower and everyone thought bhopping was dead until this legend appeared

This is not a frag-movie, this is frag-cinema. Legendary player, legendary montage and legendary legacy.
Long live phoon.

Still one of the craziest Counter-Strike videos to date.

It is CS **LAW** that every member of the bunnyhopping community return to and watch this at least once a year.
